NEW Glyco-Urea 15-15 KP Therapy

This advanced, bi-functional formula has the ability to exfoliate dead skin cells and surface plaques comparable to 40% Urea while providing replenishment and moisture to the skin barrier; helps improve the appearance of Keratosis Pilaris (KP), psoriasis, dermatitis and calluses.

BENEFITS

Glycolic Acid helps support cell turnover via epidermal exfoliation for smoother-looking, softer skin

Urea USP helps to reduce the amount of water lost throughout the skin and exfoliates dead skin, improving cell turnover of the epidermis

Papain and Bromelain loosen and remove scales and dead skin, exposing fresh, healthy, moist skin

Hexanoyl Dipeptide-3 and Norleucine Acetate promote exfoliation to quickly remove dry, hardened skin

19 amino acids proportioned biomimetically as they appear in healthy skin comprise the skin's Natural Moisturizing Factor (NMF) bind moisture to the skin keeping it soft and refreshed

DIRECTIONS ☀️🌙

For large areas of the body: Apply very sparingly, using a pea sized amount for each affected section, twice a day or as directed by your physician.

For targeted areas (feet, hands, elbows, knees): Apply a quarter sized amount to dry, cracked, hardened or callused sections twice a day or as directed by your physician.

For best results on thickened skin on feet, apply generously and cover overnight.

KEY INGREDIENTS

Glycolic Acid, Urea USP, Papain, Bromelain, Hexanoyl Dipeptide-3, Norleucine Acetate, Amino Acids

For dry, cracked and callused areas of the skin
